

We understand Animal Welfare Services are provided by medical professionals, dedicated technicians, volunteers, and administrative staff. These skilled individuals rely on Veterinary Practice software, business applications, desktops and workstations, networks, wireless, and more. Our goal at CenterGrid is to provide technology that supports Animal Welfare Shelters so that they can focus on the care of the animals and their clients.

We know budgets are tight, technology is aging, personal data needs to be protected, and although technology usage continues to increase, not enough staff exists to help support it. Here's where CenterGrid comes into play.

With our help, you can maximize what you already have so that you can focus on the tasks that matter most.

HOW WE ARE HELPING ANIMAL WELFARE TODAY

Your Practice Management Software in our Cloud

- Secure access from any device, from anywhere
- Freedom to work charts, check labs from home
- Enterprise-grade Server, Storage, and Network

Increase your Mobility and Agility

- Virtual Desktops available from any device
- Allow volunteers to bring their own device
- Secure endpoint devices

Extend the life of your current assets

- Virtual Desktops can run on older devices
- Decrease spend when renewing gear

Adopt newer technologies when needed

- CenterGrid becomes your IT team
- As new technologies become available, let us develop the integration plan for you

Accelerate your Marketing and Fundraising

- High Powered GPU Workstations for creatives
- Great for visualization and rendering needs

TECHNOLOGY EXPERTISE FOR YOUR PRACTICE

Enterprise Security Focus

- We're obsessed with security – it's in our DNA
- Managed Next-gen Antivirus
- Proactive Event Detection and Response
- Proactive Patching

Data Protection Focus

- Your data is protected within our datacenter with network isolation
- Data protection options are available for snapshots, backups, offsite copies, archives

End-User Focus

- 24x7 Service Desk for End-user Support
- Virtual Desktops and Workstations

Private, Green Data Center

- You can offload the ever-increasing power and cooling demands on to us
- Unique Geo-thermal cooling features in our flagship datacenter – 58-degree water source

24 x 7 Management and Support

- Assigned Service Delivery Manager for white-glove support and service continuity
- Problem-solver culture to architect the right solution to enable your success

"Faster, more secure access to the tools needed to deliver the services and support our customers and our animals deserve."

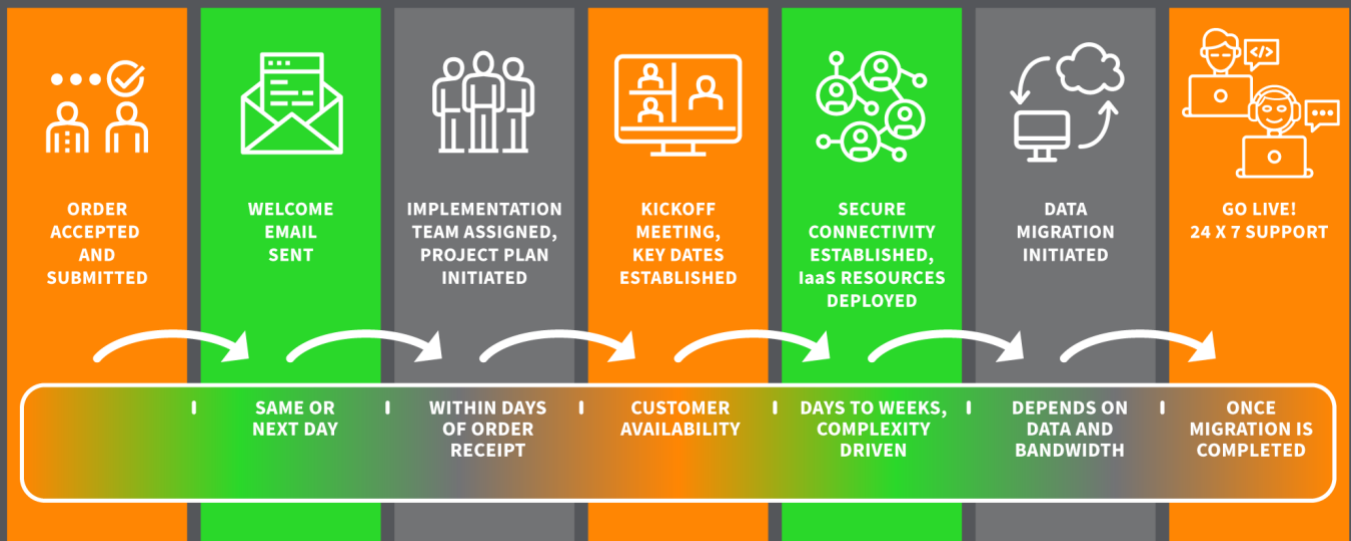

Martha Boden | CEO

LET'S DESIGN A SOLUTION TO MEET YOUR REQUIREMENTS

We'll walk you through a step-by-step process to identify and match your requirements to our available options.

Secure Connectivity	IaaS Resource Requirements	Software Review	Data Protection	Managed Services	Migration Plan
<p>Establish secure connectivity between your organization and users with CenterGrid. Review security and compliance needs.</p> <ul style="list-style-type: none"> • NextGen Antivirus • Security Features • Bandwidth • Network Tenant 	<p>Determine quantity and size of virtual machines, desktops, GPU workstations and storage capacities to deliver cost-effective performance.</p> <ul style="list-style-type: none"> • Virtual Machines • Virtual Desktops • Virtual Workstation • Enterprise Storage 	<p>Review software licensing needs and existing entitlements to ensure compliance while controlling costs. Review application dependencies.</p> <ul style="list-style-type: none"> • Existing Entitlements • Monthly Options • Third-Party Software • Support/Subscription 	<p>Review needs for data protection to insure against unintentional or malicious data loss scenarios while also meeting compliance requirements.</p> <ul style="list-style-type: none"> • Restore Requirements • Backup Policies • Snapshot Frequency • Disaster Recovery 	<p>Review CenterGrid Managed Services offerings and software patching options to ensure proper expectations are set for IaaS and on-premise.</p> <ul style="list-style-type: none"> • What We Do • What You Do • Options If Gaps Exist • Optional Services 	<p>Create project plan based on scope of effort, critical and target dates. Identify occurrences when customer is needed for validation and testing.</p> <ul style="list-style-type: none"> • Key Dates • Data Migration • Data Syncing • Target Go-Live Date

WHAT TO EXPECT AFTER YOU SAY YES: With a wide range of services to select from, we'll customize a project plan to on-board your practice into the CenterGrid services you've chosen. Our goal is to minimize the impact on your practice and staff so that the migration is seamless and non-disruptive.
